QUALITÀ SWAN

Tutti i prodotti Swan sono caratterizzati da estrema durevolezza ed elevati standard qualitativi frutto della grande maestria e della cura artigianale impiegata in ogni fase della produzione. Questo permette all'azienda di poter offrire alla domanda, ogni giorno sempre più attenta e selettiva, un prodotto con caratteristiche tecniche e formali che soddisfino anche le richieste più esigenti, distinguendosi per l'ottima qualità nell'ormai affollato panorama dell'imbottito. Gli imbottiti Swan si distinguono per una struttura in legno massello. Swan offre al consumatore l'opportunità di scegliere tra diverse soluzioni di imbottitura per i cuscini: in poliuretano espanso a quote differenziate oppure in poliuretano espanso a quote differenziate accoppiato ad una materassina in piuma. Tutte le collezioni di sedute Swan possono essere rivestite sia in tessuto sia in pelle. Per ogni tessuto, Swan fornisce trasparenti informazioni in merito a composizione, istruzioni di lavaggio, resistenza allo sfregamento. Tutti i prodotti Swan sono completamente sfoderabili ad eccezione di quelli rivestiti in pelle, nei quali è sfoderabile unicamente la cuscinatura.

All Swan's products are characterised by extreme durability and high quality standards, as a result of the great skill and meticulous care employed during every phase of the production process. Although clients are becoming increasingly well informed and selective, Swan can offer them a product with technical and formal characteristics able to meet even the most demanding requirements, standing out for its excellent quality on today's overcrowded upholstery scene. Swan upholstered furniture stands out for its solid wood structure. Swan offers the consumer the chance to select from a range of different cushion upholstery solutions: in different levels of polyurethane form or in different levels of polyurethane foam paired with a feather pad. All Swan's seating collections are available with either a fabric or leather cover. Swan provides clear information on composition, washing instructions and wear resistance for each fabric. All Swan products have completely removable covers, with the exception of the leather products, in which only the cushion covers can be removed.

100% MADE IN ITALY

Nel 2011 Swan ha conseguito la certificazione ufficiale "100% Made in Italy", che include l'Azienda nella lista delle imprese certificate per una reale e originale produzione italiana. L'Istituto per la Tutela dei Produttori Italiani ITPI ha, infatti, riconosciuto nell'Azienda valori saldi quali stile, design, cura artigianale, know-how tecnico produttivo e qualità del prodotto e ha attestato così la fabbricazione di collezioni totalmente ideate, realizzate e confezionate in Italia.
Grazie alla fabbricazione interamente italiana, alla realizzazione di modelli e progetti esclusivi dell'Azienda, all'adozione di lavorazioni tradizionali tipiche italiane, all'uso di semilavorati prodotti esclusivamente in Italia, all'impiego di materie prime e componenti di qualità di prima scelta e alla creazione di prodotti conformi alle norme sulla sicurezza in vigore, Swan soddisfa appieno i requisiti vagliati con cura dall'Istituto per la Tutela dei Produttori Italiani ITPI per il conseguimento della certificazione.

On 2011, Swan obtained the official certification, "100% Made in Italy", awarded to those enterprises whose authentic and original Italian production has been certified. The ITPI, Institute for the Protection of Italian Manufacturers, has in fact acknowledged such solid Company values as style, design, accurate craftsmanship, technical manufacturing know-how and product quality, thus attesting to the production of collections totally, conceived, manufactured and assembled in Italy.
Thanks to the Company's all-Italian production and the creation of exclusive models and projects, the adoption of typical and traditional Italian manufacturing processes, the use of semi-processed goods produced exclusively in Italy, the use of prime quality raw materials and components and the creation of products tzzhat wholly conform to the safety norms in force, Swan fully satisfies the requisites carefully assessed by the Institute for the Protection of Italian Manufacturers, ITPI, for certification purposes.

TECHNICAL INFORMATION

Trattandosi di prodotti caratterizzati da imbottiture morbide e da una lavorazione artigianale, le dimensioni indicate nelle schede tecniche possono subire leggere variazioni, anche in base alle diverse opzioni di rivestimento.
La formazione di pieghe nei cuscini di seduta non è da considerarsi un difetto, bensì una caratteristica dettata da motivi di comfort e di design.

La ditta si riserva il diritto di apportare modifiche tecniche costruttuive ai modelli in corso senza essere tenuta a comunicazione alcuna.

Comme nos produits sont caractérisés par des lignes douces et sont fabriqués suivant une procédure artisanale, les dimensions indiqués dans les fiches techniques peuvent varier légèrement (même en fonction du revêtement choisi).
Pour des raisons à la fois de confort et de design, l'apparition de plis et l'effet de miroitement sont deux phénomènes inévitables, même sur les sièges de très haut de gamme portant la griffe Swan Italia.

La maison se réserve le droit d'apporter des modifications techniques aux modèles sans communication.

As our products are produced following a handwork procedure and are featured by soft lines, sizes are subject to slight variation (also depending on the upholstery selected).
Wave formation and depressions in the seat area are unavoidable, due to comfort and design reasons, even in high quality Swan Italia upholstered furniture.

Our company retains the right to make technical and design modifications to the products in each moment without any advice.

Wegen der handwerklichen Fertigung und der soften Linien unserer Produkte, unterliegen die Masseangaben leichten Schwankungen (auch abhängig von dem gewählten Bezug).
Wellenbildung und Sitzspiegel sind aus Komfort- und Designgründen auch bei hochwertigen Swan Italia Polstermöbeln nicht zu vermeiden.

Die Firma behält sich das Recht vor, technische Modelländerungen vorzunehmen.
